For immediate release: You are about to enter into a never before seen world of new characters and adventure like no other. If you enjoy science fiction and shape-shifting this will be your exciting new journey to teleport into exciting worlds and newly created realms. Author Joanna White uses her creative abilities to develop these characters to go on action adventures and brings new life into this genre of writing. Book one *Hunter* (Ambassador International, April 30, 2019, \$15.99) is part of the *Valiant* series of stories that connect, but can be read alone as its own story.

About the Book

A reckless young woman named Averella does what no woman has ever done.

She disguises herself as a man and purposefully gets herself arrested and thrown into Zagerah. Her brother Gabriel was taken, and with his disease, he will not survive on his own. She has no idea what to expect inside the prison; all she knows is that once men get taken, they never come back.

The Hunters will find her.

Genetically altered to be faster and stronger than humans, the Hunters use their powers to find and kill every prisoner who enters Zagerah. The only ones who can defeat them, are in fact, themselves.

Jared is a Hunter. It's all he has known, all he remembers. He kills ruthlessly and without regret, one prisoner after another. When a new prisoner Dalex shows up, everything begins to change. Jared goes undercover to make Dalex and the other prisoners believe he is one of them, a prisoner himself.
